

Insurance Disclaimer

To Our Patients:

Please be advised that our practice does not contract with insurance companies for the treatment of infertility, obstetrics and gynecology, or other medical conditions. As a University of Southern California (USC) practice, our Tax ID number is that of USC OB/GYN Associates. The contracting office at USC has negotiated with insurance companies under this Tax ID number. However, services rendered through our office are excluded. We do not bill insurance companies for Assisted Reproductive Techniques (infertility) or OB/GYN services but will provide patients with itemized statements for possible reimbursement. Payment for all treatment is due on or before the day the treatment is rendered.

If you have any questions regarding the costs of your procedures or treatment, please speak with Chris Martinez, Billing Manager.

Your signature below is requested, for our records, that you have read the above statement and understand our policies regarding payment for infertility and OB/GYN procedures and treatment.
